Shopping

Zao Onsen souvenirs!

Igamochi (稲花餅)
"Igamochi" is a popular souvenir that has been sold at souvenir shops in Zao hot spring town for a long time. The bamboo leaves placed under the mochi are still made from real Kumazasa leaves, which are harvested from the mountains of Zao. The unique flavor of the bamboo leaves transfers to the mochi, making it a popular and flavorful Japanese sweet. We sell freshly made food every day. Please give it a try!

Yu-no Hana (湯の花)
It has long been said to be effective in relieving joint pain, muscle pain, fatigue recovery, and promoting health. It is also popular as a "hot spring for beautiful skin". "Yunohana" is popular because you can enjoy the hot springs in your own bath. Each item is handmade. *Zao Onsen is a sulfur spring, so please read the instructions carefully.

Sake / Wine (日本酒 / ワイン)
Sake has a flavor unique to each region. Surrounded by mountains on all sides, with abundant water sources and a climate with varying temperatures, rice and grapes are the specialty products of Yamagata. Sake and wine brewed with high-quality rice and grapes are representative souvenirs of Yamagata, where the historic sake breweries and the individuality of the makers shine. Enjoy the flavors of Yamagata's four seasons.
